

PRIORY OF SALEM PEACE CONFERENCE, FOR CHRISTENDOM AND ISLAM RELATIONS

A compromise for the ethnic aging populations of Europe to retain peace with the new majority class of Muslims.

The Priory of Salem - Peace Institute has held the first official Christendom – Islam peace conference on the 6th of September, a second meeting was held on the 27th. We have reached a consensus of scholastic opinion on the following terms for a lasting peace. The peace may be summarized in promoting cultural integrity of both sides for families. To increase the peace, all undo and unnatural “forced mixing” should be limited. Placing impossible burdens isn’t the answer. Above all we must promote Honor and respect for the ethnic heritage and culture of ***both*** sides (Christian and Muslim).

1. The unstoppable thousands of Sharia Zones which are presently operating are growing. Christians who realize they are a minority and wish to leave these zones will be helped by Priory endorsed community groups (both Muslim and Christian groups).
2. Lack of honorable conduct is the greatest problem. Fidelity to faith will discourage all the dishonorable disruptions and reduce gang activities. Religion requires balanced responses.
3. Our “Christian Relocation Committee” assists families with opinion advice and social counselling services to relocate out of the European sharia zones in an orderly fashion. Only based on numerous documented cases of failed “forced-mixing” programs, then we advise these most peaceful and respectful solutions of relocation. Maximum harmony is the goal.
4. Refugee Social services costs to the taxpayers will be reduced by community programs of the local Mosques.
5. This accomplishes restoring the family culture of European Christians. Our atheist “aging populations” are almost gone completely and the cities are becoming without inhabitants.
6. Both sides will encourage the Muslim youths (and shrinking number of Christian youths) into family relationship fidelity, positive/healthy self-building programs, and honor. Our primary aim is to give ***hope*** to not revert to drugs, drunkenness, depression, infidelity, or crime.

Priory of Salem Peace Institute has completed this peace deal with much support from community leaders from all sides. The atheist policies have become a sort of state enforced religion. This has failed and now we all are returning back to what keeps families together.
